#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 11 December 2003.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

Applicant's arguments filed 11 December 2003 have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claims 1-7, 9-23, 25-35, 37, 38, and 40-61 are currently pending.

#### ***Claim Objections***

Claims 21 and 22 remain objected to because of the following informalities: In claims 21 and 22, the antecedent basis appears refer to the oligonucleotides selected in claim 18, but to further clarify the insertion of the term "selected" before "oligonucleotide" is suggested.

Appropriate correction is required. Applicant did not respond to this objection in the response dated 11 December 2003.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7, 9-23, 25-35, 37, 38, and 40-61 remain rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 comprises a series of steps or code to identify oligonucleotide sequences suitable for the amplification of a unique sequence within a genomic region of interest comprising

Art Unit: 1631

executing a first step to identify repeat sequences, executing a second step to compare repeat sequence-free subsequences, and executing a third step to identify oligonucleotide sequences that are suitable for use as primers. These claims remain unclear. Particularly with regard to the third step, what is the intended limitation of this step? The amendment to the claim has rendered this step nonsensical. It is clear from the claim that the identification of repeat-free subsequences is intended. However, it is not clear the intended limitations of the remainder of the claim directed to “for which there are 5 or fewer sequences at least 50% identical to a nucleotide sequence in said nucleotide sequence database”. Is this intended to limit the primers or the repeat-free subsequence?

Claims 18, 34, 43, 60 and 61 recite a step of “selecting oligonucleotides that are suitable for use as primers in an amplification reaction”. It is still unclear what oligonucleotide is being identified or selected? Perhaps applicant intends the claims to read “selecting oligonucleotides based upon the identified regions”.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1631

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

No claims are allowed.
